<https://youtu.be/YSUZnt4d3Z4>

Students reported feeling more confident in their ability to distinguish fake news from legitimate sources of information.

The project helped foster cross-cultural communication and collaboration among students from different countries.

The project had helped foster critical thinking and the 21st century skills among the students, which would have long-term benefits.

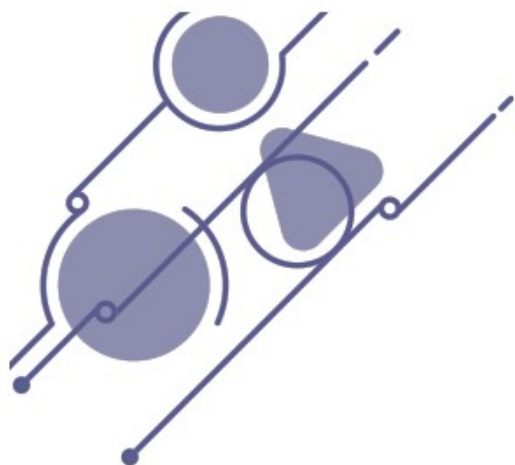

he creation of the e-book and comics allowed students to express their creativity while also educating others about

the dangers of fake news.

Certificat Național de Calitate
Certificat European de Calitate

Obiectivele proiectului

1. By the end of the project, all participating students will be able to demonstrate an improvement of at least one level in their English language proficiency, as measured through pre- and post-project language assessments.
 2. By the end of the project, 90% of students from the four schools will be able to correctly identify at least three common indicators of fake news, as measured by a pre- and post-project survey.
 3. Over the course of the project, at least 75% of students will demonstrate an increased awareness of the impact of fake news on public opinion, as evidenced by classroom discussions and written reflections.
 4. Throughout the project, at least three cross-border virtual meetings will be held and documented, during which teachers will share best practices and collaborate on lesson plans and activities related to spotting fake news.
 5. At the conclusion of the project, students will create and disseminate a series of comics or other visual media aimed at educating their peers about the dangers of fake news.
